Subject: Canada Lead doc
Lead 2016-0209 (draft not for distribution) ENG.pdf

Per Canada's request – close hold. This is their internal draft.

As requested, here is the draft consultation document on lead in drinking water. As it is still in our internal approval process, this document may change before it gets posted for public consultation and as such recipients should not cite, share or distribute it outside their work unit.

Current estimated date for posting is March 2, although that still needs to be confirmed.

(See attached file: Lead 2016-0209 (draft not for distribution) ENG.pdf)
